Thesis Defence Process

- Resource for Faculty & Staff on the PhD Thesis process and procedures
- The PhD defence process is a minimum 8 weeks from the student initiation online to defence date
Thesis Defence Timeline

- **Week 1**: Committee Members Approval / External Listing
- **Week 2**: Candidate Submits Pre-Defence Thesis & Submits Suggested Date
- **Week 3 - Week 7**: External Examiner Reads Thesis
- **Week 7**: Final Report Received from External
- **Week 8**: Thesis Defence
- **Submit Final Thesis**
Preparing for Initiation

• When should student initiate?
  o Supervisory Committee is in agreement (no formal approval required from SGS)
  o Approximately 2-3 weeks before submitting predefence thesis to SGS

• What should the student do before initiating?
  o Circulate Dissertation to Supervisory Committee
Initiating the Thesis Defense Process

- The student initiates the defence process online at least 8 weeks before the preferred defence date.
- At the time of initiation, the student is responsible for ensuring the correct committee members are listed with their correct contact information (email).
- Once student successfully submits their “intent to defend” online, the supervisor receives an automatic email with a link to nominate external examiners.
Nomination of External Examiners

- When a supervisor selects the link in the nomination email, they will review the details and ensure they tick the arm’s length box before selecting next.
Arm’s Length Policy

- The nominees SHOULD NOT:
  - 1. Have been a research supervisor or student of the supervisor or the student within the last 6 years;
  - 2. Have collaborated with the supervisor or the student within the past 6 years, or have made plans to collaborate with these individuals in the immediate future.
  - 3. Have other potential conflicts of interest (e.g., personal or financial).
  - 4. Have been employed by or affiliated with the student's or supervisor's department within the past 6 years, or expect to become employed in the department soon.
Nomination of External Examiners

- The next screen will be where the supervisor will enter the nominee information, which includes:
  1) Name
  2) Institution/Affiliation
  3) Email
  4) Area of Expertise
  5) Indicate if the examiner should be asked to attend the defence in person (SGS only covers a portion of travel costs—the rest would be either supervisor or department responsibility) or if remote participation only should be offered.
Nomination of an External Examiner

Names of proposed examiners MUST NOT be revealed to the student

Criteria for External Examiner

Please follow the steps below to fill in the form

1. Click "New Nominee" button to make a new nomination. Fill in all required fields and click "Save" button to save each nominee's information.

2. Select examining members from the committee member list.

3. Click "Submit" button at the bottom to submit the form

☐ This examiner should be invited to the defence. Any cost above $500 will be paid by N/A

Save  Cancel
Nomination of External Examiner

- Lower down on the external nomination page, the supervisor will select the committee members involved in the defence process (a minimum of 2 committee members is required, plus the supervisor).
- There is also a section to recommend an internal examiner (McMaster faculty member) in the event the external examiner chosen is unavailable to participate in the defence itself.
- Once all required information has been input, the supervisor selects submit.

Examining Committee Members

3 members are required for the examining committee. Please contact departmental graduate secretary if the desired members are not on the list.

Click the check box under "Select" column to select examining committee members, and click Submit button at the bottom of this page to submit your nomination.

In the event that the external examiner is unable to attend in some capacity, an examiner from McMaster will be required to attend the defence. This examiner can come from any department at McMaster, including that of the student, but must be at arm’s length. Please offer at least one suggestion of an appropriate faculty member that the Thesis Coordinator can contact to participate in this capacity.

Please select the faculty from the list below. If the faculty is not on the list, please enter the name and email in the text boxes below.

Previous | Submit
Approval of External Nominees

- Once the supervisor completes the online external nomination form, automatic emails are sent to each committee member for review and approval.
- After all committee members approve, a final system generated email is sent to the appropriate Department Authority for review and approval.
- The Thesis Coordinator can begin sending out invitations to the nominees ONLY after ALL approvals have been granted. Please also note that invitations are sent in random order by SGS, there is no “ranking” order that will be followed.

Defence Date Proposal and Approval

- At least 6 weeks out from the preferred defence date, the student will submit their predefence thesis to gthesis@mcmaster.ca
- Provided the external examiners have been nominated and all required approvals granted the student will be able to propose a defence date and time
- If the preferred date is exactly 6 weeks out, the student must propose the defence date online same day to ensure they meet the minimum 6 week required timeline
- Once the student proposes a defence date an email will be sent to all committee members prompting them to approve: 1) attendance at the proposed defence date and time 2) the thesis is ready to defend
- The thesis will NOT be sent out for external review until ALL required approvals are granted

Your approval

- [ ] I approve scheduling the defense
- [x] I do not approve scheduling the defense

Submit
Defence Date & Thesis Approval

• Once all committee members have approved the proposed date and thesis to proceed to the defence, each of the committee members plus the student will receive a confirmation email that reads as follows:

Dear John Smith,

The proposed Ph.D. thesis defence date and time for Student Jane Doe has been received by the School of Graduate Studies. This email is to confirm that you have agreed to attend the defence scheduled to take place on Thursday, July 14, 2016 at 3:00 PM.

Thank you,
Thesis Coordinator
Defence

- Thesis Coordinator will circulate external report to supervisory committee once submitted, approx. 2 weeks prior to defence

- A defence reminder notice will also be circulated to all those involved approx. 1-2 weeks prior to defence date

- Requirements for a defence to proceed as scheduled:
  
  o Positive external report
  o Chair
  o Minimum 3 members from supervisory committee (includes supervisor)
  o external examiner or internal examiner

- ** If a negative report has been submitted, the defence will not proceed as scheduled and an Associate Dean (SGS) will contact the supervisory committee to discuss the next steps
Defence

• **Eligibility to Chair a defence:**
  - Tenured faculty member (or Professor Emeritus) who has supervised doctoral students to completion and has also participated previously in the McMaster PhD defence process.

• **Internal Examiner:**
  - required when an external examiner has indicated they will not be able to participate in the defence
  - to act as an examiner, you must be at arm’s length from the student and supervisor
  - an examiner can be from the same department
  - the examiner will read the thesis and participate (vote) in the defence
Final Thesis Submission

• Once the student has successfully defended, and completed any required changes to their dissertation, the supervisor will sign off on the revisions via the Final Submission Sheet (provided at defence)

• All dissertations are submitted electronically via MacSphere, however a one year embargo can be placed on the thesis by indicating “Yes” to delay of publication on the Final Submission sheet
Resources

• Graduate Calendar (Regulations for PhD & Thesis: Sections 3.3 & 4.0)

• Grad Studies Website
  o graduate.mcmaster.ca

• Contact information:
  o Thesis Coordinator: gthesis@mcmaster.ca
